

## Braindump2go 2015 New Released SY0-401 Practice Exams Dumps Free Download (91-100)

**COMPTIA NEWS: SY0-401 Exam Questions has been Updated Today! Get Latest SY0-401 VCE and SY0-401 PDF Instantly! Welcome to Download the Newest Braindump2go SY0-401 VCE&SY0-401 PDF Dumps:**

<http://www.braindump2go.com/sy0-401.html> (1220 Q&As) SY0-401 Exam Questions are updated recently by CompTIA Official! Braindump2go has already got all the latest SY0-401 Exam Questions and provides latest SY0-401 Dumps for free download Now! SY0-401 PDF and SY0-401 VCE are available for download now! You can get the latest updated SY0-401 Practice Tests and SY0-401 Practice Exams! Pass SY0-401 Certification Exam Now! Exam Code: SY0-401 Exam Name: CompTIA Security+ Certification Provider: CompTIA Corresponding Certification: CompTIA Security+ [SY0-401 Dump](#), [SY0-401 PDF](#), [SY0-401 VCE](#), [SY0-401 Braindump](#), [SY0-401 Study Guide](#), [SY0-401 Study Guide PDF](#), [SY0-401 Objectives](#), [SY0-401 Practice Test](#), [SY0-401 Practice Exam](#), [SY0-401 Performance Based Questions](#), [SY0-401 Exam Questions](#), [SY0-401 Exam Dumps](#), [SY0-401 Exam PDF](#), [SY0-401 Dumps Free](#), [SY0-401 Dumps PDF](#)

### CompTIA Security+ Certification Exam: SY0-401

**Product Description Exam Number/Code: SY0-401**

**Exam Number/Code: SY0-401**

"CompTIA Security+ Certification Exam", also known as SY0-401 exam, is a CompTIA Certification. With the complete collection of questions and answers, Braindump2go has assembled to take you through 1220 Q&As to your SY0-401 Exam preparation. In the SY0-401 exam resources, you will cover every field and category in CompTIA CompTIA Security+ helping to ready you for your successful CompTIA Certification.

**Free Demo Download**

Braindump2go offers free demo for SY0-401 exam (CompTIA Security+ Certification Exam). You can check out the interface, question quality and usability of our practice exams before you decide to buy it.

QUESTION 91 A security administrator wishes to increase the security of the wireless network. Which of the following BEST addresses this concern? A. Change the encryption from TKIP-based to CCMP-based. B. Set all nearby access points to operate on the same channel. C. Configure the access point to use WEP instead of WPA2. D. Enable all access points to broadcast their SSIDs. Answer: A Explanation: CCMP makes use of 128-bit AES encryption with a 48-bit initialization vector. This initialization vector makes cracking a bit more difficult. QUESTION 92 The security administrator has been tasked to update all the access points to provide a more secure connection. All access points currently use WPA TKIP for encryption. Which of the following would be configured to provide more secure connections? A. WEP. B. WPA2 CCMP. C. Disable SSID broadcast and increase power levels. D. MAC filtering Answer: B Explanation: CCMP makes use of 128-bit AES encryption with a 48-bit initialization vector. This initialization vector makes cracking a bit more difficult. QUESTION 93 A system administrator wants to enable WPA2 CCMP. Which of the following is the only encryption used? A. RC4. B. DES. C. 3DES. D. AES Answer: D Explanation: Cipher Block Chaining Message Authentication Code Protocol (CCMP) makes use of 128-bit AES encryption with a 48-bit initialization vector. QUESTION 94 Jane, an administrator, needs to make sure the wireless network is not accessible from the parking area of their office. Which of the following would BEST help Jane when deploying a new access point? A. Placement of antenna. B. Disabling the SSID. C. Implementing WPA2. D. Enabling the MAC filtering Answer: A Explanation: You should try to avoid placing access points near metal (which includes appliances) or near the ground. Placing them in the center of the area to be served and high enough to get around most obstacles is recommended. On the chance that the signal is actually traveling too far, some access points include power level controls, which allow you to reduce the amount of output provided. QUESTION 95 A security team has identified that the wireless signal is broadcasting into the parking lot. To reduce the risk of an attack against the wireless network from the parking lot, which of the following controls should be used? (Select TWO). A. Antenna placement. B. Interference. C. Use WEP. D. Single Sign on. E. Disable the SSID. F. Power levels Answer: A F Explanation: Placing the antenna in the correct position is crucial. You can then adjust the power levels to exclude the parking lot. QUESTION 96 Which of the following would Pete, a security administrator, do to limit a wireless signal from penetrating the exterior walls? A. Implement TKIP encryption. B. Consider antenna placement. C. Disable the SSID broadcast. D. Disable WPA Answer: B Explanation: Cinderblock walls, metal

cabinets, and other barriers can reduce signal strength significantly. Therefore, antenna placement is critical. QUESTION 97 Ann, a security administrator, has concerns regarding her company's wireless network. The network is open and available for visiting prospective clients in the conference room, but she notices that many more devices are connecting to the network than should be. Which of the following would BEST alleviate Ann's concerns with minimum disturbance of current functionality for clients? A. Enable MAC filtering on the wireless access point. B. Configure WPA2 encryption on the wireless access point. C. Lower the antenna's broadcasting power. D. Disable SSID broadcasting. Answer: C Explanation: Some access points include power level controls that allow you to reduce the amount of output provided if the signal is traveling too far. QUESTION 98 After reviewing the firewall logs of her organization's wireless APs, Ann discovers an unusually high amount of failed authentication attempts in a particular segment of the building. She remembers that a new business moved into the office space across the street. Which of the following would be the BEST option to begin addressing the issue? A. Reduce the power level of the AP on the network segment B. Implement MAC filtering on the AP of the affected segment C. Perform a site survey to see what has changed on the segment D. Change the WPA2 encryption key of the AP in the affected segment Answer: A Explanation: Some access points include power level controls that allow you to reduce the amount of output provided if the signal is traveling too far. QUESTION 99 An administrator wants to establish a WiFi network using a high gain directional antenna with a narrow radiation pattern to connect two buildings separated by a very long distance. Which of the following antennas would be BEST for this situation? A. Dipole B. Yagi C. Sector D. Omni Answer: B Explanation: A Yagi-Uda antenna, commonly known simply as a Yagi antenna, is a directional antenna consisting of multiple parallel dipole elements in a line, usually made of metal rods. It consists of a single driven element connected to the transmitter or receiver with a transmission line, and additional parasitic elements: a so-called reflector and one or more directors. The reflector element is slightly longer than the driven dipole, whereas the directors are a little shorter. This design achieves a very substantial increase in the antenna's directionality and gain compared to a simple dipole. QUESTION 100 A company has recently implemented a high density wireless system by having a junior technician install two new access points for every access point already deployed. Users are now reporting random wireless disconnections and slow network connectivity. Which of the following is the MOST likely cause? A. The old APs use 802.11a B. Users did not enter the MAC of the new APs C. The new APs use MIMO D. A site survey was not conducted Answer: D Explanation: To test the wireless AP placement, a site survey should be performed. Braindump2go 100% Guarantees all the SY0-401 1220q are Real Exam Questions & Answers from CompTIA Official certification exams. We also provides long free updation for SY0-401 Exam Dumps: 1 Year Free Updates - Downloaded Automatically on your computer to ensure you get updated pool of questions. Braindump2go tries best to make you feel confident in passing SY0-401 Certifications Exam!
